

Colour Coded Session Streams

Neurology	Community Mobility & Driving	Ergonomics / Workplace Health
Contemporary Practice Issues	Indigenous Health	Rehabilitation
Occupational Therapy Education	Occupational Science	Community Development
Occupational Therapy Research	Rural & Remote Health	Home
Children, Youth & Families	Assistive Technology	Occupational Transitions
Mental Health	Ageing / Healthcare Reform	Chronic Conditions
Palliative Care	Chronic Pain	Educating Evidence-based Practitioners

Please note that program is subject to change

CONFERENCE DAY 1 - Wednesday 29th June										
7:30	Registration									
8:30	Chair Briefing Session Meeting Room 5									
9:00	Opening Session Arena 1 B Navigating the Future: steering between innovation and fashion: Paul Glaszuo Chair: Peta Raison									
	Occupational Therapy Panel Discussion Panel: Emma Gee, Jo Jackson King, Valmae Rose, Tammy Hoffmann									
10:45	MORNING TEA									
11:15	SE101 Long Oral Management of Spasticity in adults Room: Arena 1B Chair: Tammy Hoffmann	SE102 Invited Session Adults with disabilities Central Room A Chair: Craig Greber	SE103 Long Oral Occupational Therapy Education Central Room C Chair: Sue Gilbert Hunt	SE104 Long Oral Living and Dying Meeting Room 5 Chair: Lisa Broom	SE105 Long Oral Outcome Measures for Use with Children Meeting Room 6 Chair: Iona Novak	SE106 Long Oral Community Mobility and Driving Meeting Room 7 Chair: Kieren Broome	SE107 Invited Session Health of First Australians Meeting Room 8 Chair: Glyn O'Toole	W01 Workshop Meeting Room 9	Poster Tours 1 hour Neurology Exhibition Hall Chair: Jennifer Fleming	
	Hannah Barden Measurement of upper limb spasticity: test-retest reliability	Florence Clark Effectiveness of a lifestyle intervention in promoting the well-being of independently living older people: results of the Well Elderly 2 Randomised Controlled Trial	Ted Brown Predictors of empathy in undergraduate health science students	Deidre Morgan Contending with palliative decline: the work of adaptation	Megan Thorley Unidimensionality of the QUEST for children with cerebral palsy aged 2-16 years	Jacki Liddle Satisfaction with UQDRIVE groups for older people and the impact on transport and lifestyle goals	Kellie McIntosh & Lin Oke First Australian Health - through OT and allied health	Elsbeth Froude & Lynette Mackenzie Enhancing occupational therapy practice: Reviewing for a peer reviewed journal	Daisuke Kimura P01: The investigation of the potential screen of brief cognitive assessment to discriminate cognitive function decline from cognitively healthy subjects in community	
	Melissa Nott Goal attainment following upper-limb Botulinum Toxin-A injections: Are we facilitating achievement of client-centred goals?	Kylie Richardson The Fit to Play Program for Young Adults with Intellectual Disability: A Pilot Mixed Method Evaluative Study	Rachelle Coe, Laura Moran Preparing occupational therapy graduates to work with children and adolescents: Therapist's perspectives of educational needs	Sharon Keesing Disengaged and disempowered- findings from a study of people who were dying and their carers in Western Australia	Helen Bourke-Taylor Development of the Child's Challenging Behaviour Scale (CCBS) for children with disabilities	Louise Gustafsson Improving outcomes of driving cessation for older people: Results from a RCT of the UQDRIVE groups		Neo Damba P02: The Process Model of Cognitive Rehabilitation in Occupational Therapy (PMCR- OT)		
	Bianca Kinnear What is the evidence for therapy after Botulinum Toxin-A injections for the treatment of spasticity in adults? A systematic review	Michelle Donnelly How Person Centred is It?	Lee Zakrzewski Preparing occupational therapy graduates to work in aged care: An evidence based approach	Deidre Morgan Continued living through occupation at end-of-life	Annette Joosten The motivation of repetitive behaviour in children with autism and intellectual disability: Examination of the construct validity of the Motivation Assessment Scale	Jacki Liddle How do we improve outcomes of driving cessation for people with dementia?	Ellen Gaudry & Jodie Booth Using Participatory Action Research (PAR) to develop a "My Trip to Hospital" DVD with remote First Australian communities		Jacqui Morarty P03: Creating a new Post-Traumatic Amnesia (PTA) protocol and flowchart for use with the traumatic brain injury (TBI) population, within the acute hospital setting	
	Bianca Kinnear The promise and potential of Botulinum Toxin-A: Views and experiences of therapists	Rachael McDonald Care giving for adults with developmental disabilities: effect on health and well being of their parents	Alejandra Aguilar Professionalism in Occupational Therapy Practice...What Does It Mean?	Anita Bundy Composing a life when the last song is written: Quality of life in Duchenne muscular dystrophy	Anna Smith Reliability and validity of a new instrument to measure tolerance of everyday risk for children	Carolyn Unsworth Driver assessment following stroke: Client performance on the OT-DORA Battery and on-road driving test	Heather Jensen Developing services for Indigenous people with dementia in Central Australia		Amelia Tyers P04: Patient education: mild traumatic brain injury	
	Natasha Lannin Rehabilitation after botulinum toxin injections: A randomised controlled trial protocol.	Rachael McDonald Developing a service to enhance access to meaningful occupations for adults with developmental disabilities	Penny Power An innovation for Queensland Health Occupational Therapy: the development of a Clinical Capability Framework	Madeline Tomlin The impact of cancer on work participation: a narrative study	Chris Chapparo School readiness: Agreement between the Perceive, Recall, Plan and Perform (PRPP) System of Task Analysis and teacher assessment	Claudia von Zweck National Blueprint for Injury Prevention in Older Drivers	Susan Gauld From research to practice: Developing a community-based rehabilitation approach with Indigenous People with acquired brain injury living in rural and remote Queensland		Karen Goddard P05: Experiences of a QLD brain injury outreach team in implementing a self directed support pilot	
12:45	LUNCH									
13:45	SE108 Long Oral Traumatic Brain Injury and Community Follow-up Room: Arena 1B Chair: Natasha Lannin	SE109 Long Oral Assistive Technology Sponsored by:  Central Room A Chair: Rachael Schmidt	SE110 Long Oral Occupation for Health Central Room C Chair: Mandy Stanley	SE111 Long Oral Occupational Therapy in Emergency Departments Meeting Room 5 Chair: Margot Masters	SE112 Long Papers Children and Youth: Service Development Meeting Room 6 Chair: Helen Bourke-Taylor	SE113 Long Oral Community Mobility and Driving Meeting Room 7 Chair: Carolyn Unsworth	SE114 Long Oral Remote and Rural Service Issues Meeting Room 8 Chair: Judith Merritt	W02 Workshop Meeting Room 9	Poster Tours 1 hour Home Exhibition Hall Chair: Louise Gustafsson	
	Emily Nalder Sentinel events in the transition from hospital to home for individuals with traumatic brain injury (TBI)	Desleigh de Jonge Using evidence to improve the quality and consistency of device prescription practice	Clare Wilding Taking action to enable human rights and occupational justice in an Australian metropolitan hospital	Trudi Epple Emergency Department Occupational Therapy patients: Who is walking through the doors?	Beth Mozolic-Staunton Early Intervention Consortiums: A collaborative community perspective	Pamela Ross Driver Assessment and rehabilitation outcomes after traumatic brain injury	Heather Jensen Going out bush and still doing everything: An exploration of transdisciplinary practice for remote allied health professionals	Tammy Hoffmann & Sally Bennett Evidence-based practice: where do I start?	Katherine Baggaley P06: Opening Pandora's Box: describing the scope of occupational therapy practice in a Community Health Service in Victoria	
	Katherine Hopman Community-based rehabilitation following severe traumatic brain injury: A comparison of clinical outcomes from two community re-entry programs	John Pashen & Vicki Robinson Techno Kids: Assistive Technology Playgroup	Lynne Zeldenyk Occupational Science for the Bottom Billion: Our Role in Public Health	Michelle Bissett Occupational Therapy in the Emergency Department: Perceptions of medical staff	Jenny Ziviani Program logic and early intervention service fidelity for children with physical disability	Janet Frith Shifting Gears: Resuming driving after Stroke	Zoe Jaboor Social Connection and Mental Health: A review of the literature for young people in rural communities		Kate Batchelor P07: A contemporary view of the occupational therapy role in home visiting	
	Kate D'Cruz Understanding the value of client-centred practice from the perspective of adults with an acquired brain injury	Natasha Layton Assistive Technology Costs and Outcomes	Genevieve Pepin A universal theory of occupation: Fantasy or reality?	Lisa O'Brien Targeted Occupational Therapy service for older patients admitted with trauma: Improving patient outcomes	Jane Galvin Shared decision making and ethics in paediatric occupational therapy	Annie McCluskey Outcomes following Driving Assessment after Stroke	Jenny Fishpool Efficacy of follow up practices by occupational therapists in rural and remote health		Tammy Aplin P08: Understanding the impact of home modifications on the dimensions of home	
	Michelle Turnbull Clinical Practice patterns of case management for brain injured clients: A national survey of case managers	Christa Roessler Evaluating Prescription, Provision and Use of Assistive Technology Across NSW	Yvonne Thomas Occupation without Occupation: Stories from people experiencing homelessness	Tilly Jones & Tess Anderson The Pathway Project: Post-presentation support and identification of falls in older persons within an inner-city Emergency	Jackie Spillane, Michelle van Donge 21 years of occupational therapy in schools - have we come of age?	Carolyn Dun Drive Safe: A project that demonstrates how to embed occupational therapy services in a large mental health organisation	Nerida Hyett Accessing alcohol and other drug services in a rural community: client experiences of changing factors that impact on their health		Lindy Clemson P09: Technology for Dementia: Occupational Therapists attitude and practices towards technology for way finding	

Sponsored by:

				Department			and wellbeing			
	Joanne Oates The real cost of care at home for people with severe brain or spinal cord injuries living in New South Wales	Stephen Hales Access to informed prescribers: What has worked in equipment education in Queensland?	- WITHDRAWN - Jodie Copley How occupation-based do Queensland occupational therapists think they are in practice?	- WITHDRAWN - Michelle Cleary The 'Advanced Health Practitioner': a Contemporary Role for OT's	Elsbeth Froude Factors influencing children's readiness to enter school: Views from early childhood educators	Yetta Chan Effectiveness of community mobility rehabilitation using virtual reality technology				
15:15	AFTERNOON TEA									
15:45	SE115 Short Oral Post-traumatic Amnesia and Cognition Room: Arena 1B Chair: Melissa Nott	SE116 Short Oral Seating and Pressure Care Sponsored by:  Central Room A Chair: Christa Roesler	SE117 Short Oral Listening to Stories: Qualitative Approaches Central Room C Chair: Clare Wilding	SE118 Short Oral Community-based Occupational Therapy Meeting Room 5 Chair: Susan Darzins	SE119 Short Oral Parents and Families Meeting Room 6 Chair: Neroli Dickson	SE120 Short Oral Chronic Pain and Self-management Meeting Room 7 Chair: Pam Meredith	SE121 Long Oral Systems and Services Meeting Room 8 Chair: Julie Connell	W03 Workshop Driving Forum Meeting Room 9 Chair: Pam Ross		
	Courtney Janzen Syndrome of the Trephined Following Bifrontal Decompressive Craniectomy: Implications for Occupational Therapy	Amy Eldridge Manual Wheelchair Prescription for Community Dwelling Older Adults	Lise Mogensen Hearing their views: Engaging teenagers diagnosed with autism in qualitative research using a collaborative participatory approach	Joanne Oates What is 24 hour attendant care? Understanding inclusions and exclusions to adequately prepare a client and family for discharge from hospital	Megan Thorley Upper limb casting practices for children with cerebral palsy: A survey of Australian clinicians	Helen van Huet Living and doing with chronic pain: Clients' and therapists' perspectives	Ruth Cox The Occupational Therapy Advisory Group - OT's Influencing Queensland Health	Kerry Mallon, Anita Bundy, Pam Ross, Amanda Bewert, Carolyn Unsworth Driving Forum		
	Erin Griffin Enhancing the acute management of post-coma unresponsive and minimally responsive state patients	Rachael McDonald Electronic activity measurement and children who use adaptive seating systems	Linda Wilson Auto methodologies: a personal perspective	Ryuichi Hasegawa Effects of periodic task-specific test feedback on physical performance in older adults undertaking band-based resistance exercise	Anita Niehues Everyday Uncertainty: Parents' Risk Perceptions and Children's Free Play	Marika Swanton, Gabriela Veliz Advancements in evidence and theories shape occupational therapy intervention with clients with chronic pain - a practical example of developments over time				
	Janine Knill Analysis of patterns of emergence from post-traumatic amnesia (PTA) on the Westmead PTA Scale as a means of determining discharge readiness	Rachael Schmidt Understanding decision making: How can complex seating be more collaborative?	Linda Robertson Unintended Narratives in Research Interviews with Older People	Charmaine Krishnasamy Patterns of activity, and transport to activities among older adults in Melbourne	Kitty-Rose Foley A cross-sectional description of the lives of young adults with Down syndrome transitioning from school to post-school	Karl Bagraith What do Occupational Therapists' working in chronic pain assess and could they starting using the International Classification of Functioning, Disability and Health (ICF)?	Lisa Somerville, Jacqui Morarty Prioritising and managing workload demands in an acute Occupational therapy service			
	Janet Frith Exploring Acute Traumatic Brain Injury Admissions and Occupational Therapists' Use of the Westmead Post-Traumatic Amnesia Scale: Evidence Informing Practice	Rachael Schmidt Exploring the perceived benefits of participating in a complex seating service	Lee Chin An approach to improving the quality of life of residents living in aged care facilities: from the perspectives of the residents	Catherine Peters An approach of an enhanced multidisciplinary community based group program for Parkinson's disease	Jenny Ziviani Engaging parents and children in therapy, harnessing motivation and supporting self efficacy	Lauren Frame & Angela Hawkes Managing the mechanisms of complex regional pain syndrome				
	Judy Ranka Differences in information processing strategy application during everyday task performance between men with mild HIV-1-associated dementia (HAD) and men with moderate/severe HAD	Sam Fairhall Utilising evidence based practice in the area of pressure ulcer management for frail elderly and older disabled people	Glyn O'Toole A pilot study informing the supervisory process: What does the supervisee value?	Josephine Mortimer Delivering effective and engaging evidence-based practice: the evolution of an out-patient falls prevention group program	Fiona Graham Parents' experiences of engaging in Occupational Performance Coaching (OPC)	Susan Arnold Engaging in the performance of domestic duties when experiencing chronic pain	Julie Neild Expanding Occupational Therapy Psychosocial Practice into the field of Inpatient Antenatal Care			
	Danielle Sansonetti Evaluating Cognitive Assessment in Occupational Therapy: The clinical reasoning around cognitive assessment for individuals post stroke and TBI	Jillian Swaine Does Ultrasound Screening of the Pelvis have a Role in the Wheelchair Seating Assessment? A Pilot Study	Susan Giles Identifying and measuring our core business	Sanet du Toit Dementia Care Mapping (DCM): feasible option for improving the quality of formal dementia care in a developing economy?	Helen Bourke-Taylor Self-reported mental health of mothers with a school aged child with a disability in Victoria: Implications for occupational therapy	Pauline Boland Coping and Multiple Sclerosis - individuals with MS and their significant others: a qualitative exploration				
	Ted Brown Can you perceive what I see?: The reliability and concurrent validity of three adult visual perceptual tests	Vi Nguyen AusCAN risk assessment for sitting acquired pressure ulcers	Camilla Radia-George, Jude Boyd Effectiveness of EBP initiatives on research interest and experience of OTs	Yvonne Pennisi Chronic Ulcers, Manual Lymphatic Drainage and Teamwork in the Community: A Case Study	Jane Galvin Implementation of a parent information management package in paediatric rehabilitation	Nicole Shaw Goal Setting for Chronic Illness Rehabilitation: Experiences and Views of Patients and Health Professionals	Mahnee Bottomley An Evidence Based Evaluation of the Types and Benefits of Total Hip Replacement Pre-Operative Education Programs used within Australian Health Districts			
	Kristylee Sharp Cognitive rehabilitation, through participation in a community garden, for clients with an acquired brain injury	Sam Fairhall Measuring occupational therapists self-reported knowledge, confidence and use of evidence based practice in pressure ulcer management	Imelda Burgman Ability versus disability: Identity formation through sport for a youth with cerebral palsy	Linda Barclay Impact of secondary physical health conditions on people with spinal cord injury living in the community in Australia	Lisa Vale Keeping children safe: Restraint of children with additional needs in motor vehicles	Rebecca Taylor How should I choose which chronic disease self-management tool to use?: perspectives of clinicians and clients				
	Jeanine Allouas Patterns of recovery observed in patients in vegetative or minimally conscious states following severe traumatic brain injury: what determines rehabilitation readiness?	Anna Rose Pressure Ulcer prevention and management: health professional's experiences and perceptions regarding multidisciplinary practice	Iona Novak Parent experience of implementing home programs: semi-structured interviews	Clare McHugh Wellbeing following stroke: lost in translation		Vee Pols Building the Evidence for Self-Management Support - a skill in Occupational Therapy clinical practice	Elizabeth Ainsworth & Shane Teague Cross-Government Department Partnership: Statewide Occupational Therapy Clinical Education and Training for Environmental Modifications			
	Natasha Lannin The functional independence measure for people with traumatic brain injury: how good is the cognitive scale for measuring neuropsychological impairments?	Marianne Romeo The impact of Integrating Interface Pressure Care Self-Management	- WITHDRAWN - Val Lehmann-Monck A one-stop-shop supporting evidence based practice for occupational therapists: Development of a set of online practice packages	- WITHDRAWN - Jengliang Eric Hwang Personal Factors Predictive of Health-Related Lifestyles of Community-Dwelling Older Adults	- WITHDRAWN - Katrina Langtry Parent perceptions of the occupational therapy role in an autism early intervention setting	Carol Birks Living Better for Longer: Facilitating a Coordinated Multidisciplinary approach to motor neurone disease through 'one stop shop' online resources				
17:15	WELCOME RECEPTION									
CONFERENCE DAY 2 - Thursday 30th June										
8:00	Registration opens									
8:30	Chair Briefing Session Meeting Room 5									
9:00	SE222 Invited Session Client-Centred occupational therapy after stroke Room: Arena 1B Chair: Judy Ranka	SE223 Long Oral Mental Health: Family, Health and Work Central Room A Chair: Lisa Chaffey	SE224 Long Oral Responding to Health Care Reform Central Room C Chair: Jan Erven	SE225 Long Oral Occupational Therapy Practice Issues in Palliative Care Meeting Room 5 Chair: Rachelle Coe	SE226 Long Oral Children and Youth: Handwriting and Participation Meeting Room 6 Chair: Kevin Duffy	SE227 Long Oral Children and Youth: Families' Experience of Care giving Meeting Room 7 Chair: Jenny Ziviani	SE228 Long Oral Occupational Therapy Workforce Issues Sponsored by:  Meeting Room 8 Chair: Marilyn Pattison	W04 Workshop Occupational Therapy Research Meeting Room 9	Poster Tours Occupational Transitions Exhibition Hall Chair: Michelle Courtney	EW01 Exhibitor Workshop Meeting Room 1
	Emma Gee Client-Centredness from the Anablep Perspective	Fiona Barnett The physical health and activity of people with severe mental illness (SMI)	Bo Li Health reform and primary health care: the journey so far	Katherine Faddy Palliative Care Practice: An historical review of occupational therapists making evidence work	Elsbeth Froude Differences between proficient and non-proficient hand writer's in primary school	Abbey Eeles Sensory Profiles of infants born <30 weeks' gestation	Merrolee Penman Creating social presence within virtual communities of practice	Annie McCluskey & Sally Bennett Implementing evidence in practice: A workshop for clinicians and managers	Zoe Jaboor P10: Jill's Journey	Telecare Boot Camp Leanne Ryan Tunstall Healthcare
		Nicola Bacon The impact of the WiFit in Forensic Mental	Bo Li The case against national registration?	Mira Varon Occupational Therapin in the last month of a	Alison Prigg Application of the cognitive orientation to	Genevieve Pepin Attention Deficit / Hyperactivity Disorder: The	Tracey Parnell Women, work, and occupational therapy		Michelle Donelly P11: Get that job: Principles for securing open	

		Health		person's life in palliative care setting - a retrospective audit	occupational performance (CO-OP) approach to address handwriting goals in a group setting	development of occupational therapy clinical practice guidelines		employment and the experience of a professional with a disability using an employment program		
	Natasha Lannin Life after Stroke: Community follow-up of Australian survivors of stroke	Georgia Mahony How do mental health Occupational Therapists address issues of diet with their clients? A qualitative study	Chris Kennedy Better Access and Domino 4Nativity of a Lobbying Campaign	Alisha Chand & Katherine O'Shea How Palliative Care has taught us how to put the occupation back into occupational therapy	Chi-Wen Chien Is real-life hand skill performance a predictor of children's daily living functioning?	Reinie Cordier No friends no fun: the importance of playmates in developing the play and social skills of children with ADHD	Merolee Penman Readiness to be self-directed learners - Do we have what it takes?	Anita Bundy P12: Choosing the Best Off-Road Driving Assessment	Meeting Room 4 Debunking the myths & Prevention & Treatment of ulcers	
	Sally Eames Randomised controlled trial of a post-discharge education and support package for clients with stroke and their carers	Caitlin McDowell & Natasha Tudor Developing natural supports in the workplace to support employees with mental illness	Claudia von Zweck A National Educational Curriculum to Facilitate the Workforce Success of Internationally Educated Occupational Therapists	Deidre Morgan Palliative rehabilitation: Oxymoron or new opportunity?	Margaret Wallen Effective handwriting instruction: What does the evidence tell us?	Chris Chapparo Use of a sensory protocol by parents of children with intellectual disability and sensory defensiveness to achieve functional and behavioural goals: A randomised controlled study	Zoe Jaboor Risk, Choice and Advocacy: The Occupational Therapists dilemma in facilitating high risk occupations	Kate Wyllie P13: Exploring the Occupational impacts of Retirement from Elite Sport for Athletes with a Physical Disability	Carolyn Thomas MacMed Healthcare	
	Louise Gustafsson STRENGTH: Stroke Rehabilitation Enhancing and Guiding Transition Home	- WITHDRAWN - Elizabeth Taylor Through Sibling Eyes: Siblings Growing Up with Schizophrenia	Kerry Adam Knowledge, Skills and Professional Behaviours: Perceptions of Employers and Early Graduate Occupational Therapists in Work Related Practice	Pamela Meredith Can Spirituality be taught to health professionals, including occupational therapists?	Adele Calley A comparison of activity, participation and quality of life in children with and without spastic diplegia cerebral palsy	Annabelle Marozza Sensory processing preferences of children with cerebral palsy aged 6 - 10 years	Anne Poulsen Looking at burnout and work engagement: Protecting our workforce of the future	Mandy Stanley P14: Community Safety: The perspective of older adults		
10:30	MORNING TEA									
10:55	Plenary Session Arena 1B Chair: Peta Raison Bonnie Kirsh Translating qualitative research into practice and enhancing the therapeutic alliance Sylvia Rodger Leadership through an Occupational Lens: Celebrating our Territory									
12:35	LUNCH									
13:30	SE229 Long Oral Practice Issues in Neurology Room: Arena 1B Chair: Julia Schmidt	SE230 Long Oral Mental Health: Exploring and Explaining Scope of Practice Central Room A Chair: Priscilla Ennals	SE231 Long Oral Health Promoting Occupations Central Room C Chair: Alison Wicks	SE232 Long Oral Living with Cancer Meeting Room 5 Chair: Carol McKinstry	SE233 Long Oral Children and Youth: Enhancing Occupational Performance Meeting Room 6 Chair: Jane Galvin	SE234 Long Oral Children and Youth: Cerebral Palsy Meeting Room 7 Chair: Brian Hoare	SE235 Long Oral Contemporary Issues Meeting Room 8 Chair: Kerry Adam	W05 Workshop Occupational Therapy Research Sponsored by:  Meeting Room 9	Poster Tours Chronic Conditions Exhibition Hall Chair: Julia Bowman	EW02 Exhibitor Workshop Meeting Room 4
	Leo Ross "Practice makes Perfect" Increasing the intensity of upper limb training after stroke	Genevieve Pepin Occupational Therapy Practice and Eating Disorders: A Comparison Between Australia, Canada, and the United Kingdom	Fiona Wiseman Occupation-based therapy improves functional outcomes for older people participating in rehabilitation	Sarah Shipp Living with cancer: the occupational therapy role in exploring and enabling leisure participation	Carissa Lyons Factors of family-centred practice that predict parents' satisfaction in early childhood intervention settings	Margaret Wallen Modified constraint-induced therapy compared with standard occupational therapy for children with hemiplegic cerebral palsy: Results of a randomised trial	Ted Brown Listening and communication styles of undergraduate occupational therapy students	Espeth Froude & Lindy Clemson Getting published: Writing for a peer reviewed journal	Judith Merritt P15: The National Type 2 Diabetes Prevention Strategy and its fit with Occupational Therapy	The art of navigating your own risks Emma Keegan AON Insurance
	Megan Gozzard The handwriting behaviours of healthy adults	Michelle Taylor Introduction of sensory modulation interventions: A strategic approach in a metropolitan mental health setting in Queensland	Matthew Moylan Shed Power: Collaboration for Better Men's Health Outcomes	Sally Bennett Educational interventions for the management of cancer-related fatigue in adults: A Cochrane systematic review	Imelda Burgman The experience of raising a child with a disability in a rural or remote area	Lauren Frohlich Evaluation of a neoprene wrist hand gauntlet to reduce pain and increase handwriting speed for students with symptomatic hypermobility: A single system design study	Michelle Courtney The Way to enable: An occupational perspective on contemporary pilgrimage		Helen Antcliffe P16: 'Instant evidence' from Pulse Oximetry Biofeedback facilitates evidence based practice for Occupational Therapy'	
	Donné Burger An investigation of normative handwriting speed in healthy older adults	Joanne Walczak Piloting a Mindfulness Meditation Program in a Mother and Baby Unit	Mandy Stanley Exploring the shed space: The meaning of the shed for older Australian men	Amanda Purcell Cancer-related fatigue educational intervention trial	Kirsty Stapylton Experiences of a strengths-based camp for rural and remote families who have a child with a disability	Amy Cussen Hopes and aspirations for leisure and living: Adolescents with cerebral palsy talk about the future	Tony Buxton Generation "Y" research: Informing and changing educational practices		Joanne Cairney P17: Informing practice: Bridging the gap in service delivery for adult liver transplant patients	Electrical stimulation for stroke rehabilitation using the H200: A clinical review and therapy considerations Bev Quee Surgical Synergies
	Elizabeth Yates Perceived spousal stroke caregiver needs and concerns based on subjective difficulties: A pilot study	Milly Kohn Better Access to Mental Health Program: Influence of mental health occupational therapy	Paul Phillips The Unified Theory of Self addresses complex concerns raised by recent research into the ability for occupations to be meaningful, engaging and fulfilling	Jane Maher The effect of massage on fluid distribution in arms of breast cancer patients with lymphoedema	Catherine Hillly The Collaborative Goal Setting Experiences of Parents who have Children with Disabilities and Occupational Therapists	Megan Thorley Efficacy of upper limb botulinum toxin A injections and occupational therapy on the manual performance of children with congenital hemiplegia	Bo Li Foundations for E-health in professional practice		Sue Laracy P18: Making Evidence Work : lessons learnt in the development of 2 clinical practice guidelines for the management of adults with chronic disease within a Queensland, Australian health care setting	
	Kylie Bower Facilitating self-management of recovery of the upper limb after stroke: How effectively do occupational therapists and physiotherapists train clients and carers?	Genevieve Pepin Occupational Therapy and Mental Health: The Scope of Practice of Australian therapists do occupational therapists and physiotherapists train clients and carers?	- WITHDRAWN - Elaine Chai The Meaning of Rest	Claire Carson & Amy Cummins Occupational engagement of women with post-breast cancer lymphoedema: Using women's perspectives to create an evidence-base	Helen Bourke-Taylor Barriers to maternal workforce participation and relationship between paid work and health when there is a child with a disability in the family	- WITHDRAWN - Vai Leinamm-Hironck Playfulness in care: Enhancing quality of life for children living in out-of-home care	Susan Brown An evaluation of a new graduate occupational therapy program			
15:00	AFTERNOON TEA									
15:30	SE236 Short Oral Neurological Rehabilitation Room: Arena 1B Chair: Belinda Carr	SE237 Short Oral Mental Health Practice Central Room A Chair: Chris Lloyd	SE238 Invited Session Working in Diverse Communities Central Room C Chair: Thelma Burnett	SE239 Short Oral Occupational Therapy in Cancer and Palliative Care Meeting Room 5 Chair: Matthew Yau	SE240 Short Oral Children and Youth: Intervention for Sensory Processing Difficulties Meeting Room 6 Chair: Sylvia Rodger	SE241 Short Oral Children and Youth: Cerebral Palsy and Traumatic Brain Injury Meeting Room 7 Chair: Margaret Wallen	SE242 Short Oral Contemporary practice issues Meeting Room 8 Chair: Anne Cusick	Student Forum Meeting Room 9 Chair: Kerry Adam	Poster Tours 1 hour Educating Evidence-based Practitioners Exhibition Hall Chair: Mary Kennedy Jones	EW03 Exhibitor Workshop Meeting Room 4
	Annie McCuskey Translating evidence into practice on an inpatient stroke rehabilitation unit	Hazel Bassett The role of occupational therapy in working with the homeless	Thelma Burnett World Federation of Occupational Therapy	Lisa Broom Exploring engagement in meaningful occupations following primary brain tumour diagnosis	Donna Morgan Sensory Coaching: Increasing awareness of sensory processing in early childhood educators	Melinda Lewis Development of a child-focussed multimedia resource for children undergoing Single Event Multi-Level Surgery	Julia Bowman Evidence of professional development: Is a 50 minute education session and follow up support sufficient to improve clinicians' SMART goal writing skills?	Carol Crocker What an employer looks for when employing a new graduate OT	Amanda Bladen P19: A strong body of evidence embracing and developing Evidence Based Practice in Occupational Therapy	Making life easier for RAP prescribers John White Allianz Global Assist
	Donna Wakim Development and explanation of the CANS: a scale to measure community care needs after brain injury.	Michelle Kightley Adventure activity group. A study into the effectiveness of a physical activity group brain injury.		Elizabeth Pearson An occupational therapy framework for managing cancer related fatigue	Deborah Busch & Aneesa Kathrada Making evidence work for school based occupational therapists supporting students with sensory processing challenges	Iona Novak Clinical prognostic messages about cerebral palsy: A systematic review	Jill Thiele Creating Credible Credentialing		Linda Robertson P20: Exploring ideas about evidence in occupational therapy	
	Gabriela Veliz Community Based Functional Upper Limb Activity Group for Stroke Survivors: The Evidence, Challenges and Successes	Annalise O'Callaghan Using the Geriatric Depression Scale to measure psychotherapeutic group outcomes in depressed older adults: A research opportunity for Occupational Therapists	Yvonne Thomas Evaluating Vietnamese Health Professionals Knowledge of Occupational Therapy and Their Educational Needs	Jude Boyd Occupational therapy in an interdisciplinary ambulatory palliative care clinic	Steffanie Auld The impact of stability balls and discs on mainstream primary students' sensory responses and handwriting outcomes	Tracy Maree Smith Measuring ICF participation of young people with cerebral palsy using two 'gold standard' instruments: restrictions are apparent, but measures lack relevance even though they are rigorous	Margot Masters Credentialing Occupational Therapists for Clinical Environments		Sue Bethares P21: Shaping entry level education: the process of program accreditation	
	Kate Hickey Pilot project trailing home based mirror therapy to improve the functional outcomes of geographically isolated patients with a hemiplegic upper limb post stroke	Phoebe Williamson Implementing Sensory Modulation in a Mental Health Service	Paul Phillips Cross Cultural or simply cross at culture?: One way to work with a person's culture is using the Phillips Cultural Orientation Screening Tool	Rebekah Boffa Functional maintenance on a palliative care unit - an audit of current practice.	Annette Joosten Evidence-based occupational therapy with children with autism: Using information about sensory processing to increase the child's participation in daily life	Adele Calley A systematic review of activity, participation and quality of life for children with and without cerebral palsy	Kieran Broome OT job advertisement trends Dec 2009 to Dec 2010; a Queensland study	Christopher Hammacott What knowledge and skills were most useful to me as a new graduate winning and starting my first job	Glyn O'Toole P22: 'Every experience provides an opportunity for learning': Evaluating the role of Reflection in practice	
	Angela Hawkes Wii-rehabilitation for stroke - gimmick or goal achieving? A pilot study evaluating the use of a commercially available games console in improving upper limb function as part of	Sue Holley Informing Occupational Therapy Practice: The Sensory Modulation Train the Trainer Strategy	Caroline Mills An Occupational Therapist in China: Insights for Working in Local and International Community Development	Katherine O'Shea, Alisha Chand The Complexities of Role of the Occupational Therapist in Palliative Symptom Management	Rebecca Taylor Implications of the activity participation levels of children with Asperger syndrome for occupational therapy	Jane Galvin Does intervention using virtual reality improve upper limb function in children with neurological impairment: A systematic review of the evidence	Jenny Nel OTs: Work Harder or Smarter? Empowering Occupational Therapy Assistants			

stroke rehabilitation	Carly Adams Implementing the Evidence: Errorless Learning Intervention in a Meal Preparation Task	Alicia King The Rotating Dinner Party: A cooperative program of planning and preparing healthy meals with people experiencing chronic mental illness	Mandy Stanley Incorporating Language and Culture in Aged Care: A Case Study in the Italian Community	Leesa Musarra Exploring the role of occupational therapists in oncology and palliative care	Tess Steventon A profile of the practice of occupational therapists in the Hunter region, with children who have sensory processing difficulties	Mary Scannell Finding Occupation in a Neonatal Environment: A Review of the Literature and Current Practice	Vickie Mills Trial of a new skill mix in Aged Care Rehabilitation		
	Louise Gustafsson Exploring activity levels in stroke and on the weekends?	Lydia Forbes Exploration of how Psychosocial Support Programs within new Community Supported Accommodation Units Facilitates the Recovery Journey of the Residents	Linda Wilson Internalising cultural differences	Katherine O'Shea Advance Care Planning Program	Annette Joosten Understanding that children with autism and intellectual disability have different motivators for engaging in repetitive behaviours should be considered in planning occupational therapy interventions	Beth Fulton A breath of fresh air: Working with children requiring long-term ventilation	Amanda Bladen The importance of Evidence Based Super- Vision: A best practice model of supervision based+ on the voice and insights of occupational therapists and grounded in evidence	Julie Connell Why belonging to OTAL is so important to OT graduates	
	Krystal Sullivan Therapeutic Breakfast Club for Stroke Rehabilitation	Lisa Chaffey Exploring the Relationship between Intuition and Emotional Intelligence in Occupational Therapy Mental Health Practice	Rebecca Wolfgang Change in Occupational Therapy students' knowledge and attitudes towards indigenous culture after attending an indigenous cultural excursion	Lauren Fulop A Sleep Story	Judy Chan Information processing strategies and school performance in typically developing children: A longitudinal multiple- case study	Wendy Foo An Investigation of participation following paediatric brain injury and its relationship to functional status at discharge in children with acquired brain injury	Leanne Sondergeld Teaching and Learning Professional Reasoning in Paediatric Practice		
	Ester Mebalds Evaluation of a Return to Work and Study Program - Work and study status changes of clients in a RTW-S program post neurological event	Jessica Slatter What does owning a pet mean to homeless people?	Sarah Curry & Andrie McDermott Cross Cultural Play and Communication: 'Recipe Book for Play: A Guide for Professionals'	Sarah Solomon Keeping the wheels turning' - how the purchase of a wheelchair accessible vehicle has improved care in a neuropalliative service	Cylie Williams Is idiopathic toe walking a symptom of Sensory Processing Dysfunction?	Neroli Dickson Developing competency in children using powered mobility	Sheridan Wicks & Alison Wicks Are we there yet? Reflections of two occupational therapists at different stages of their professional journeys		
	Johanne Walker Neuroplasticity: Evidence-based Novel Intervention Programs for Occupational Therapy Practice	- WITHDRAWN - Marjan Verbeek Stepping Forward - mental health consumers are finding their feet in Supported Education programs	Marilyn Pattison Meeting the Global Challenge - Moving towards International Citizenship	- WITHDRAWN - Alisha Chand Evidence in Practice: An Innovative Capacity Building Framework to Enhance Palliative Care Occupational Therapy Service Provision in Regional Australia	Anita Bundy Health related quality of life in boys with Duchenne muscular dystrophy: Agreement between parents and their sons	Jane Galvin Preliminary results for a controlled trial of virtual reality in motor rehabilitation following paediatric TBI	Rachel Chin Leisure participation patterns of children in Victoria, Australia		

17:45 OTA CONFERENCE DINNER

CONFERENCE DAY 3 - Friday 1st July

7:30 Registration opens

8:30 Chair Briefing Session Meeting Room 5

9:00	SE343 Invited Session Implementation of Evidence in Stroke Rehabilitation Room: Arena 1B Chair: Christine Imms	SE344 Invited Session Home Assessment and Modification Sponsored by:  Central Room A Chair: Natasha Layton	SE345 Long Oral Student Practice Education Central Room C Chair: Ailsa Gillen	SE346 Long Oral Evidence in Practice Sponsored by:  Meeting Room 5 Chair: Elsbeth Froude	SE347 Long Oral Children and Families: Play Meeting Room 6 Chair: Imelda Burgman	SE348 Long Oral Work and Medico-legal Practice Sponsored by:  Meeting Room 7 Chair: Shelley Allen	W07 Workshop Meeting Room 8	W08 Workshop Meeting Room 9		
	Annie McCluskey The future is here: Clients who bring research evidence to therapists	Susanne Iwarsson Housing and Health in very old Europeans: Findings from the ENABLE - AGE Project	Sonia Gaden Capricornia Allied Health Partnership - Interdisciplinary Chronic Disease Student Clinic Karen Long Student placements in specialist areas of Occupational Therapy. Is special preparation required?	Sally Bennett Is there a lack of evidence to inform occupational therapy? Julia Bowman Generating evidence: Using a randomized controlled trial to establish the effectiveness of educational workshops to promote routine outcome measurement	Shelley Wright Is playfulness a key to resilience in vulnerable children? Fiona Nielsen Child's Play: Parents' Satisfaction of a Multidisciplinary Playgroup in an Acute Care Setting	Bronwyn Farquhar Optimizing Musculo-Skeletal health at work Rosamund Harrington Motor Accident Insurance Scheme Design, Service System Capacity and Quality of Life after Severe Traumatic Brain Injury	Jenny Mace, Valerie Wright Sinclair, Yvonne Thomas & Thelma Burnett Graduates as innovators: Informing the profession on occupational rights and justice	Jill Ashburner, Sylvia Rodger & Liz Hinder Occupational therapy for people with autism: current practices, training needs and use of evidence		
	Natasha Lannin A systematic review investigating the effectiveness of stretch for the treatment and prevention of contractures in people with neurological conditions	Helen Nelson Challenges of choosing outcome measures in acute care: The use of the Home Assessment Profile to measure the impact of OT home assessments in the acute setting	Vi Nguyen The role of occupational therapy within interdisciplinary pressure care in a Ukraine orphanage	Sally Bennett Organisational support for evidence-based practice: Does it help?	Shelley Wright Playfulness in preschool children: What is the role of parenting style, parent playfulness and attachment?	Carole James Evidence for Functional Capacity Evaluations - the intra and inter rater reliability of the WorkHab FCE				
	Iona Novak Effective Home Program Intervention for Adults: A Systematic Review	Desleigh de Jonge Creating the Evidence: Building a Foundation for Home Modification Practice	Melanie Roberts The Clinical Education Support Officer role within a State-wide public health Occupational Therapy Clinical Education Program	Katherine Baggaley Clinical Data-Mining as a platform for practitioner-research in occupational therapy	Sarah Wilkes-Gillan A Play-Based Intervention for Children with ADHD: A Pilot Study	Ev Innes Lifting capacity of healthy young adults (18-25 years): Implications for addressing gender differences in injury prevention				
	Nicole Nugent The content of occupational therapy sessions in stroke rehabilitation within an Australian general rehabilitation unit	Tammy Applin The content of occupational therapy sessions in stroke rehabilitation within an Australian general rehabilitation unit	Ted Brown Academic teaching and clinical education learning environments: How do health science students view them?	Annie McCluskey The impact of an implementation workshop on practice	Iona Novak Botulinum Toxin Assessment, Intervention and Follow-up for Paediatric Upper Limb Hypertonicity: International Consensus Statement	Suzanne Johnson Letting workers be the Experts! Paper Sub Title: The Use of a participative ergonomics program within the Queensland manufacturing sector				

10:30 MORNING TEA

11:00	SE349 Long Oral Cognitive Rehabilitation Room: Arena 1B Chair: Iain Irving	SE350 Long Oral Falls Prevention Central Room A Chair: Michelle Bissett	SE351 Long Oral Enhancing Curriculum Delivery Central Room C Chair: Lee Zakrzewski	SE352 Long Oral Clinical Reasoning & Outcome Measurement Meeting Room 5 Chair: Julia Bowman	SE353 Long Oral Youth Participation Meeting Room 6 Chair: Rebecca Taylor	SE354 Long Oral Work and Medico-legal Practice Sponsored by:  Meeting Room 7 Chair: Linda Barclay	W09 Workshop Meeting Room 8			
	Jeanine Allaus Goal attainment for memory impairments after brain injury	Jacqueline Wesson Avoiding the double whammy - dementia and falls: pilot testing a novel approach to falls prevention in the community	Sok Lim The Use of Interactive Formative Assessments to Enhance Learning	Julia Bowman Making evidence work: Are occupational therapists ready to routinely measure intervention effectiveness?	Rosalind Bye, Rebekah Buckman, Kate Sheedy, Lauren Parsons & Meagan Hartley Evidence of clinical reasoning: Therapists' approaches to client and family-centred practice with adolescents and their families	Kylie Bootes Difficulties with multitasking on return to work after TBI: A critical case study	Louise Gustafsson and Annie McCluskey The use of electrical stimulation by occupational therapists			
	Julia Schmidt Determining the Evidence for Awareness Interventions in Patients with Brain Injuries: A systematic review	Lynette Mackenzie Understanding of private occupational therapists, physiotherapists and general practitioners about Team Care Arrangements offered through the Enhanced Primary Care system for older people at risk of falls	Samantha Donohoe Perceptions of private occupational therapists, physiotherapists and general practitioners about Team Care Arrangements offered through the Enhanced Primary Care system for older people at risk of falls	Zephania Tyack Considerations when Selecting an Outcome Measure	Imelda Burgman Resilience of youth with disabilities in high school settings	Ev Innes Manual Material Handling: Approaches to Assessment
